The use and installation must conform with local codes or, in the absence of local codes, with either the National Fuel Gas Code, ANSI Z223.1/NFPA 54, Natural Gas and Propane Installation Code, CSA B149.1, or Propane Storage and Handling Code, B149.2, or the Standard for Recreational Vehicles, ANSI A 119.2/NFPA 1192, and CSA Z240 RV Series, Recreational Vehicle Code, as applicable.

THIS INSTRUCTION BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION. PLEASE READ AND KEEP FOR FUTURE REFERENCE.

If you are assembling this unit for someone else, give this manual to him or her to read and save for future reference.

Manufactured in China for: RevoAce Inc. Limited Hong Kong, China 1.833.908.2025

WARNING

FIRE OR EXPLOSION HAZARD If you smell gas:

- 1. Do NOT attempt to light appliance.
- 2. Make sure appliance is in the off position.
- 3. Extinguish any nearby flame(s).
- 4. Shut off cylinder fuel supply valve if so equipped, or if equipped with a disposable fuel cylinder, disconnect cylinder.
- 5. Leave the area immediately.
- 6. Allow gas to dissipate 5 minutes.
- 7. If gas smell has dissipated from the area, of the appliance, and fuel supply, follow gas connection procedures.
- 8. If you smell gas again, follow steps 1-6 and have appliance serviced.

Failure to follow these instructions could result in fire or explosions, which could cause property damage, personal injury, or death.

WARNING

Improper installation, use, adjustment, alteration, service, or maintenance can cause injury or property damage. Refer to this manual. For assistance or additional information consult a qualified installer, service agency or gas supplier.

WARNING

This product can expose you to chemicals, including carbon monoxide and soot which are known to the State of California to cause cancer, birth defects, and other reproductive harm. For more information go to www. P65Warnings.ca.gov.

IMPORTANT SAFEGUARDS

A DANGER

CARBON MONOXIDE HAZARD

- This appliance can produce carbon monoxide which is poisonous and has no odor.
- Using it in anenclosed space can kill you.
- Never use this appliance in an enclosed space such as a camper, tent, car or home.

WARNING

FOR YOUR SAFETY:

For Outdoor Use Only (outside any enclosure)

WARNING

FOR YOUR SAFETY:

Do NOT store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.

DANGER

Do NOT leave this appliance unattended while it is in operation.

A DANGER: Failure to follow the instructions, dangers, warning and cautions in this manual may result in serious bodily injury or death, or in a fire or an explosion causing damage to property.

WARNING:

- A This camp stove is for outdoor use only, and should not be used in a building, garage or any other enclosed area.
- **▲** Improper installation, adjustment, alteration, service or maintenance can cause injury or property damage.
- A Read the installation, operation and maintenance instructions thoroughly before installing or servicing this equipment.
- A Do NOT operate, light or use this appliance within eight feet of walls, structures or buildings.
- A Keep all combustible items and surfaces at least 21 inches (53 cm) away from this camp stove at all times. Do NOT use this camp stove or any gas product under any overhead or near any unprotected combustible constructions.
- A This camp stove is NOT for commercial use. This lantern is safety certified for use in the United States and/or Canada only. Do NOT modify for use in any other location. Modification will result in a safety hazard and will void your warranty.
- A This camp stove is for use with liquid propane (LP) gas only. The conversion to or attempted use of natural gas in this LP gas camp stove is dangerous and will void your warranty.

▲ LP Gas Characteristics:

- a. LP gas is flammable and hazardous ifhandled improperly. Become aware of the characteristics before using any LP gas product.
- b. LP gas is explosive under pressure, heavier than air and settles and pools in low areas.
- c. LP gas in its natural state has no odor. For your safety, an odorant is added that smells like rotten cabbage.
- d. Contact with LP gas can cause freeze burns to skin.
- **⚠** Do NOT store a spare LP cylinder within 10 feet (3.05 m) of this appliance.
- An LP cylinder not connected for use should not be stored in the vicinity of this or any other appliance.
- A LP gas tank needed to operate. Only tanks marked "propane" may be used.
- ⚠ The LP gas cylinder must be constructed and marked in accordance with the Specifications for LP-gas Cylinders of the U.S. Department of Transportation (D.O.T.), Cylinders, Spheres and Tubes for the Transportation of Dangerous Goods; or the National Standard of Canada, CAN/CSA-B339.
- **A** LP gas tank must be arranged for vapor withdrawal.
- ▲ LP gas tank must remain upright or at a 46° angle. Do NOT use when laying LP gas tank flat, as this will cause damage to your camp stove and void your warranty.

IMPORTANT SAFEGUARDS

- A Dented or rusted LP gas tanks may be hazardous and should be checked by your LP gas supplier prior to use.
- A The LP gas tank should NOT be dropped or handled roughly.
- ▲ LP gas tanks must be stored outdoors out of the reach of children and must not be stored in a building, garage or any other enclosed area. Your tank must never be stored where temperatures can reach over 125°F.
- A Never attempt to attach this camp stove to the self-contained LP gas system of a camper trailer, motor home or house.
- A Do NOT install or use in or on boats or recreational vehicles.
- A The use of alcohol, prescription or non-prescription drugs may impair the consumer's ability to properly assemble and safely operate the appliance.
- A Never use charcoal, lighter fluid, lava rocks, gasoline, kerosene or alcohol with this product.
- A Your camp stove has been checked at all factory connections for leaks. Recheck all connections, as movement in shipping can loosen connections.
- A Check for leaks even if your unit was assembled for you by someone else.
- ▲ Do NOT operate if a gas leak is present. Gas leaks may cause a fire or explosion.
- A You must follow all leak-checking procedures before operating. To prevent fire or explosion hazard when testing for a leak:
 - a. Always perform leak test before lighting this camp stove and each time the tank is connected for use.
 - b. No smoking. Do NOT use or permit sources of ignition in the area while conducting a leak test.
 - c. Conduct the leak test outdoors in a well-ventilated area.
 - d. Do NOT use matches, lighters or a flame to check for leaks.
 - e. Do NOT use this camp stove until any and all leaks are corrected.
- A If you are unable to stop a leak, disconnect the LP gas supply. Call a gas appliance serviceman or your local LP gas supplier.
- **⚠** Do NOT use in an explosive atmosphere. Keep camp stove area clear and free from combustible materials, gasoline and other flammable vapors and liquids.
- A It is essential to keep this camp stove's valve compartment, burners and circulating air passages clean. Inspect camp stove before each use.
- A Do NOT alter this camp stove in any manner.
- A Doing so will void your warranty.
- **⚠** Do NOT use this camp stove unless it is COMPLETELY assembled and all parts are securely fastened and tightened.
- A This camp stove should be thoroughly cleaned and inspected before each use.
- Use only the regulator provided. The replacement regulator shall be that specified by the manufacturer.
- **▲** Use only RevoAce Inc. Limited factory-authorized parts.
- A The use of any part that is not factory-authorized can be dangerous.
- A This will also void your warranty.
- **⚠** Do NOT touch metal parts of this camp stove until they have completely cooled to avoid burns, unless you are wearing protective gear (pot holders, gloves, BBQ mittens, etc.).
- **⚠** Do NOT install or use in or on boats or recreational vehicles (RV).
- A Do NOT use camp stove in a vehicle trunk, station wagon, mini-van or sport utility vehicle (SUV).
- ★ When cooking, fire extinguishing materials should be readily accessible. In the event of an oil/grease fire, do NOT attempt to extinguish with water. Use type BC dry chemical fire extinguisher or smother with dirt, sand or baking soda.
- A Do NOT use this camp stove in high winds.
- A Never lean over this camp stove when lighting.
- ▲ Do NOT use this camp stove if any part has been under water. Immediately call a qualified service technician to inspect the appliance and to replace any part or control system and any gas control that has been under water.

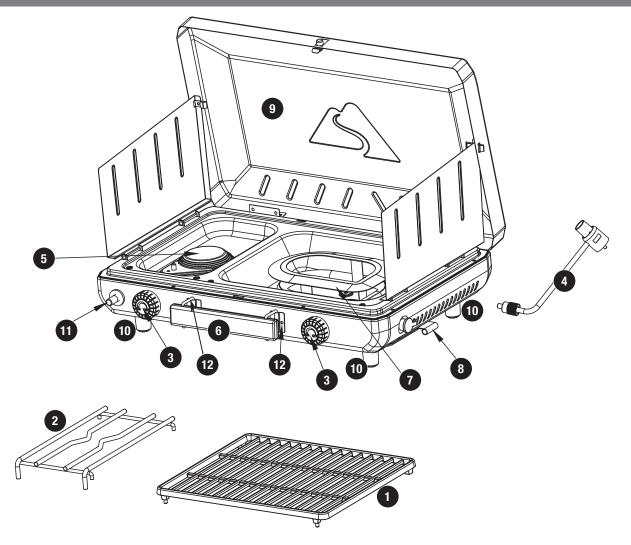

IMPORTANT SAFEGUARDS

- ▲ Do NOT leave a lit camp stove unattended, especially keep children and pets away from camp stove at all times.
- ♠ Do NOT attempt to move this camp stove when in use. Allow this camp stove to cool before moving or storing.
- A Storage of this camp stove indoors is permissible only if the tank is disconnected, removed from this camp stove and properly stored outdoors.
- **⚠** Do NOT attempt to disconnect the gas regulator from the tank or any gas fitting while this camp stove is in use.
- A Disconnect LP gas tank when not in use.
- Always use your camp stove on a hard, non-combustable, level surface. An asphalt or blacktop surface may not be acceptable for this purpose.
- ▲ Do NOT use directly on wooden decks or wooden picnic tables.
- A Keep all electrical cords away from a hot camp stove.
- A This camp stove is not intended for and should never be used as a heater.
- **A** TOXIC fumes can accumulate and cause asphyxiation.
- After a period of storage and/or nonuse, check for leaks and burner obstructions.
- Always use a meat thermometer to ensure food is cooked to a safe temperature.
- A Never cover entire cooking area with aluminum foil.
- **▲** Use protective gloves when assembling this product.
- A Do NOT force parts together as this can result in personal injury or damage to the product.
- \triangle The minimum environmental temperature for safe storage and operation of the appliance is -18°C (-0.4°F).
- A Death, serious injury or damage to property may occur if the above is not followed exactly.

Assembly Instructions

DO NOT RETURN TO PLACE OF PURCHASE.

Please have your owner's manual and model number available for reference.

Note: The model number can be found inside of the grill.

Assembly Tips:

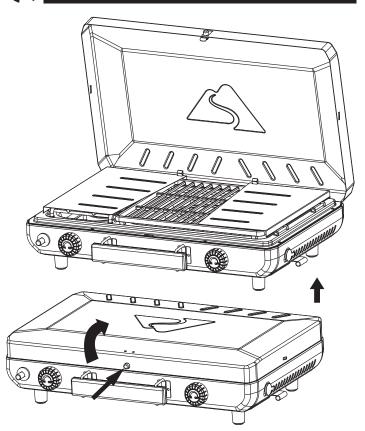

- 1. Select an area where you will assemble this product. To protect components, choose a smooth surface that's free of cracks or openings.
- 2. Spread out all parts.
- 3. Tighten all hardware connections by hand first. Then, before completing each step, go back and fully tighten all hardware. Be careful not to overtighten. That could damage surfaces or strip threads.
- 4. For best results, complete each step in the order presented.

To complete assembly you will need:

- (1) Leak Detection Solution (instructions on how to make solution are included in "Operating Instructions" section).
- (1) 14.1 oz or (1) 16.4 oz LP gas tank (not included).

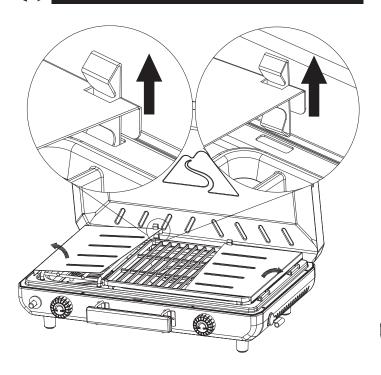

Typical assembly is approximately 5 minutes.

Attach Regulator

Operating Instructions

This camp stove is designed to operate with a one pound 7-3/8" high disposable / 14.1 oz. propane gas tank (DOT 39 Cylinder).

DO NOT ATTEMPT TO REFILL ANY ONE POUND(14.1 oz.) PROPANE GAS TANKS!

Connecting LP Gas Tank

- 1. Make sure the control knobs are in the "OFF" position (Figure 1).
- 2. Lubricate the threads of the regulator valve with petroleum jelly. Insert the gas tank into the regulator valve and hand-tighten firmly (Figure 2).
- 3. LP gas tank must be kept at a 46° angle or 66° angle (Figure 4 & Figure 5).
- 4. Test for leaks.
- ▲ To maximize use and prevent damage to this camp stove and its components, you must keep the LP gas tank a 46° angle or 66° angle. Not doing so will void your warrantyest for leaks.

Disconnecting LP Gas Tank

- 1. Turn the control knob to the "OFF" position (Figure 1).
- 2. Rotate LP gas tank counterclockwise until it is detached (Figure 3).
- 3. Store the LP gas tank in a proper location, per instructions on the LP gas tank.

Checking for Leaks

Burner Connections

1. Make sure the regulator is securely fastened to the burner tube connection (Figure 7).

MARNING: Failure to inspect this connection or follow these instructions could cause a fire or an explosion which can cause death, serious bodily injury or damage to property.

2. If the burner/venturi tube does not rest flush to the regulator, please contact 1.833.908.2025 for assistance.

Regulator / 1lb. LP Gas Tank Connection

- 1. Make 2-3 oz. of leak detection solution by mixing one part liquid dishwashing soap with three parts water.
- 2. Make sure control knob is "OFF" (Figure 1).
- 3. Spoon several drops of solution, or use squirt bottle, at the LP gas tank to regulator connection (Figure 6 & 7).
- 4. Inspect the solution at the connections, looking for bubbles.
 - a. If any bubbles appear, remove the LP gas tank and reconnect, making sure the connection is secure.
 - b. If you continue to see bubbles after several attempts, remove the LP gas tank per "Disconnecting LP Gas Tank" section, and contact 1.833.908.2025 for assistance.
 - c. If no bubbles appear after one minute, turn control knob to the "OFF" position, wipe away solution and proceed.

First Use

- Make sure all labels, packaging and protective films have been removed from this camp stove.
- 2. Remove manufacturing oils before cooking on this camp stove for the first time, by operating this camp stove for at least 5 minutes on "ON." This will "heat clean" the internal parts and dissipate odors.

Lighting Instructions

MARNING: Do NOT expose this camp stove to flammable vapors or liquids during lighting.

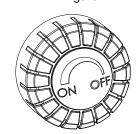

- 1. Make sure all labels, packaging and protective films have been removed from this camp stove.
- 2. Make sure there are no obstructions of airflow to the unit. Spiders and insects can nest within and clog the burner/venturi tube at the orifice. A clogged burner tube can lead to a fire beneath the appliance.
- 3. Control knobs must be in the "OFF" position (Figure 1).
- 4. Attach the LP gas tank per the "Connecting LP Gas Tank" instructions.
- 5. Turn control knob counterclockwise to "ON".
- 6. Press the igniter button quickly 3 to 4 times to light burner.
- 7. If ignition does not occur in 5 seconds, turn burner control knob "OFF," wait 5 minutes and repeat lighting procedure.
- 8. Wearing heat-resistant gloves, position a long lit match or long lit butane lighter near the side of the burner (Figure 8).
- 9. After lighting, observe the burner flame. Make sure all burner ports are lit and flame height matches illustration (Figure 9).

A CAUTION: If burner flame goes out during operation, immediately turn the control knobs "OFF" and let the gas clear for about 5 minutes before re-lighting.

10. Repeat steps 4-8 for second burner.

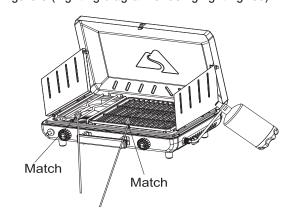

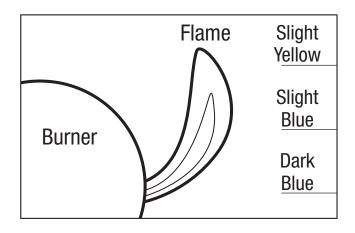

Figure 9 (Observe Burner Flame)

Operating Instructions (Continued)

Turning Off

- 1. Turn control knobs to the "OFF" position.
- 2. Remove the LP gas tank per the "Disconnecting LP Gas Tank" instructions.

Cooking

- 1. Open lid and ignite the burner(s) per "Lighting Instructions" section.
- 2. Wear protective gloves to place pots and/or pans onto burner grid.
- 3. Wear protective gloves and use long-handle tongs to place food into pots and/or pans above the lit burner.
- 4. Adjust controls to desired temperature.
- 5. Cook until desired internal food temperature is achieved.
- 6. Turn camp stove off per "Turning Off" section.

Cleaning and Care

- A CAUTION: All cleaning and maintenance should be done when grill is cool and with the fuel supply disconnected.
- **⚠** CAUTION: Do NOT clean any camp stove part in a self-cleaning oven. The extreme heat will damage the finish.
- A CAUTION: Keep camp stove clear and free from combustible materials, gasoline and other flammable vapours and liquids.
- A CAUTION: Do NOT obstruct the flow of this combustion and ventilation air.

Notices

- 1. Abrasive cleaners will damage this product.
- 2. Never use oven cleaner to clean any part of camp stove.

Inspecting

This camp stove should be inspected on a regular basis to ensure product safety and longer product life.

- **▲** WARNING: Do NOT attempt to inspect this camp stove unless the flames are COMPLETELY out and unit is cool to the touch.
- 1. Check burner to make sure it is secure.
- 2. Check burner/venturi tube to make sure it is clear and free of spider nests.
- 3. Check all gas connections for leaks.
- 4. Check components for any signs of damage or rust.
- 5. If damage to any component is detected, do NOT operate until repairs are complete.

Cleaning Surfaces

- **▲** WARNING: Do NOT attempt to clean this camp stove unless the flames are COMPLETELY out and unit is cool to the touch.
- 1. Wipe surfaces clean with mild dishwashing detergent or baking soda mixed with water.
- 2. For stubborn stains, use a citrus-based degreaser and a nylon scrubbing brush.
- 3. Rinse clean with water.
- 4. Allow to air dry.

Cleaning and Care (Continued)

Cleaning Main Burner

- 1. Turn gas "OFF" at the control knobs and remove LP gas tank.
- 2. Remove regulator.
- 3. Remove cooking grid.
- 4. Clean inlet of burners with small bottle brush or compressed air.
- 5. Remove all food residue and dirt on burner surfaces.
- 6. Clean any clogged ports with a stiff wire (such as an opened paper clip).
- 7. Inspect burners for any damage (cracks or holes). If damage is found, replace with new burner(s) from the manufacturer.
- 8. Reconnect regulator.
- 9. Replace cooking grid.
- 10. Perform leak test.

Replacement Parts

For replacement parts, call 1.833.908.2025.

Limited Warranty

RevoAce Inc. Limited warrants to the original retail purchaser of this product, and to no other person, that if this product is assembled, maintained, and operated in accordance with the printed instructions accompanying it, then for a period of one (1) year from the date of purchase, all parts in such product shall be free from defects in material and workmanship. RevoAce Inc. Limited may require reasonable proof of your date of purchase. Therefore, you should retain your sales slip or invoice. This Limited Warranty shall be limited to the repair or replacement of parts, which prove defective under normal use and service and which RevoAce Inc. Limited shall determine in its reasonable discretion upon examination to be defective. Before returning any parts, you should contact RevoAce Inc. LimitedCustomer Service Department using the contact information listed below. If RevoAce Inc. Limited confirms, after examination, a defect covered by this Limited Warranty in any returned part, and if RevoAce Inc. Limited approves the claim, RevoAce Inc. Limited will replace such defective part without charge. If you return defective parts, transportation charges must be prepaid by you. RevoAce Inc. Limitedwill return replacement parts to the original retail purchaser, freight or postage prepaid.

This Limited Warranty does not cover any failures or operating difficulties due to accident, abuse, misuse, alteration, misapplication, improper installation or improper maintenance or service by you or any third party, or failure to perform normal and routine maintenance on the product as set out in this owner's manual. In addition, the Limited Warranty does not cover damage to the finish, such as scratches, dents, discoloration, rust or other weather damage, after purchase.

This Limited Warranty is in lieu of all other express warranties. RevoAce Inc. Limited disclaims all warranties for products that are purchased from sellers other than authorized retailers or distributors, including the warranty of merchantability or the warranty of fitness for a particular purpose.

Revoace Inc. Limited ALSO DISCLAIMS ANY AND ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIESOF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Revoace Inc. Limited SHALL HAVE NO LIABILITY TO PURCHASER OR ANY THIRD PARTY FOR ANY SPECIAL, INDIRECT, PUNITIVE, INCIDENTAL, OR CONSEQUENTIAL DAMAGES. Revoace Inc. Limited further disclaims any implied or express warranty of, and assumes no responsibility for, defects in workmanship caused by third parties.

This Limited Warranty gives the purchaser specific legal rights; a purchaser may have other rights depending upon where he or she lives. Some jurisdictions do not allow the exclusion or limitation of special, incidental or consequential damages, or limitations on how long a warranty lasts, so the above exclusion and limitations may not apply to everyone. RevoAce Inc. Limited does not authorize any person or company to assume for it any other obligation or liability in connection with the sale, installation, use, removal, return, or replacement of its equipment, and no such representations are binding on RevoAce Inc. Limited.
